

Wastewater Source Control Section

Our Vision...

Working together with our customers, we protect the public sewage system and the environment in which we live.

Our Mission...

To protect the sewage collection and treatment facilities of the Sacramento region by controlling pollutant discharges to the sewer system.

To reduce the discharge of pollutants to the sewer by educating businesses and the general public on waste reduction, management and appropriate disposal.

Our Guiding Principles...

- 💧 Respect and care for the environment*
- 💧 Efficient, effective services: Remember the ratepayer*
- 💧 Consistent, fair, honest and ethical interactions aimed at attaining positive outcomes*
- 💧 A work environment that is healthy and safe, encourages a balance of work and personal life, and considers opinions and ideas of others*
- 💧 Integrity and professionalism: We “walk the talk”*
- 💧 Teamwork and cooperation using open, clear and effective communication*
- 💧 Employee development through personal and professional improvement*
